

Clinical Unit Manager – Imaging and Diagnostics

At the forefront of veterinary medicine...

We are looking for full time highly motivated and organised Clinical Unit Manager for our Imaging and Diagnostics Department. This role will report directly to our Operations Manager.

We are a privately owned emergency and specialist veterinary hospital. Our services provide a 24-hour, Advanced Treatment Centre outfitted with brand-new, world-class, 'cutting-edge' technology and equipment (Philips EPIQ Elite). Since opening in June 2020, our business has grown from 35 employees to well over 150+ dedicated and passionate veterinary professionals.

About You:

You will have an open mind, be adaptable, willing to learn, be a team-player and have great communication skills. We love to work as a team and bounce ideas off one-another; sharing of knowledge, techniques, and experience with each other is vital. You work well with people at all levels of the business. You will maintain a cohesive and positive team and work environment by encouraging a positive culture and leading with a "can do" attitude.

About the Role:

This role is to help promote maximum productivity and efficiency, through the planning, provision, coordination, and maintenance of the Imaging & Diagnostics Department.

Responsibilities and Duties:

- Ensure clear, timely & accurate communication, intra and inter-departmentally.
- Gather and Analyze performance data of the department.
- Identify opportunities for enhancement of systems and training of the department.
- Ensure service continuity, compliance, and quality.
- Coordinate the department resources, schedules & workloads.
- Enhance relationships, to promote & maximise cooperation.
- Setting an example of a great attitude at all times.

Experience and Qualifications:

- Bachelor's degree in operations management, business administration, or related field preferred
- 2+ years' proven experience in a leadership management position
- Highly trained in conflict management processes
- Proficiency in Microsoft Office (Word, Excel, Outlook)

- Knowledge of general business software and aptitude to learn new applications, such as ezyVet, Cubex inventory system, and smartflow patient management.
- CPR/Basic Life Support Certificate (or willingness to train)
